Languages/Skills

- JavaScript/Node.js
- Chrome Dev Tools
- SASS/SCSS/LESS
- GIT/GitHub
- Photoshop
- HTML/CSS
- Java
- C/C++

Plus, design + illustrations!

Intro

Howdy! I'm a passionate and enthusiastic full stack engineer with various projects built on hand. As a Lambda School student, I constantly hear people around me joking around about how much extra I'm doing for each project and challenge. That's because I've been programming for more than 2 years and loved the creative and problem solving aspect of programming from the start!

Experience

Small Social Network

2019

A small interactive social network written in Java using a graph structure. The Small Social Network has a variety of features like login in, joining the network, adding friends, modifying the user's profile as well as seeing a list of friends' friends.

MDN Search Extension

2019-now

An MDN Search Extension for Google Chrome that simplifies user's experience whenever they want to use MDN docs. Currently, MDN Search Extension is in beta development. So far it triggers the search field automatically whenever popup is open(through clicking or 'Ctrl+M' shortcut) and redirects the user to the MDN search page with their keywords.
